

**Department of Transportation
Olympia, Washington 98504**

February 13, 2002

ATTENTION: All Bidders and Planholders

**SR 12
SR 5 TO MILL CREEK
F. A. No. NH-0012(129)**

Addendum No. 6

You are notified that the Special Provisions for this project are amended as follows:

Insert the attached page 74 between page 73 and page 75.

Bidders shall furnish the Secretary of Transportation with evidence of receipt of this Addendum. This Addendum will be incorporated in the contract when awarded and when formally executed.

**Harold Peterfeso, P.E.
State Design Engineer**

Attachment: Page 74 Special Provisions

Mulching

Section 8-01.3(2)D is supplemented with the following:

(March 13, 1995)

*** Wood cellulose fiber *** mulch shall be applied at a rate of *** 2000 *** pounds per acre.

ROADSIDE PLANTING

Construction Requirements

Section 8-02.3 is supplemented by the following:

Chemical Pesticides

Section 8-02.3(2)A is supplemented with the following:

The type, composition, and application rate of any chemical pesticide used for weed control measures shall be submitted to Engineer for approval prior to use.

The Contractor shall utilize a colorant in all chemical applications. Colorant shall be approved by the Engineer prior to use.

The Contractor is required to follow the requirements and guidelines of **Water Quality Permit #00WQH-Q-868** as issued by the Washington State Department of Ecology for any chemical application within the project limits.

The Contractor is required to submit a signed and dated **Commercial Pesticide Pesticide Application Record, DOT Form 540-509 EF** to the Engineer within five working days of making any pesticide application. The Engineer will make copies of these forms available to the Contractor upon request.

Noxious Weed Control

Section 8-02.3(2)B is supplemented with the following:

General weed control, including control of those species considered noxious by local weed control authorities, will be required for all areas within the project limits.

The target weed species listed below shall be treated in the same manner of weeds specified as noxious by the Washington State Department of Agriculture or County Weed Board. Additional species of undesirable vegetation may be added to the noxious or target at the direction of the Engineer.

Cirsium sp., Thistle sp.
Cytisus scoparius, Scotch Broom
Dipsacus fullonum, Common Teasel
Equisetum sp., Horsetail Sp.
Lythrum salicaria, Purple Loosestrife
Phalaris arundinacea, Reed Canarygrass (cut and fill areas only)
Polygonum cuspidatum, Japanese Knotweed
Populus nigra 'Italica', Lombardy Poplar
Robinia pseudoacacia, Black Locust
Rubus laciniatus, Evergreen Blackberry
Rubus procerus, Himalaya Blackberry
Solanum sp., Nightshade sp.
Vicia villosa, Hairy Vetch

The Contracting Agency will make periodic reviews of the project area throughout the life of the Contract to document weed infestations and control measures. Written notification of weed control needs will be made by the Contracting Agency following each site review. The Contractor shall conduct necessary weed control operations within 5 working days of receiving written notification from the Engineer.
